

# Stop the spread of illness with FLUency

Track fever, symptoms and medications for easier diagnosis and treatment

Anonymously ask questions or share comments about your child's health

See information on what's going around to help **stop the spread of illness** in the classroom

## Redeem your free thermometer

- 1 Download the free Kinsa App from Google Play or the Apple App Store

- 2 Follow prompts to create individual profiles for each child in your household

- 3 Select "groups" from the Menu and search for your school using school name & city/state or zip

- 4 Join group and enter your details to receive your Kinsa thermometer

### That's it!

Look out for details on when & where to pick up your Kinsa from school!\*  
(thermometers ship in January)

\*Hurry! While supplies last

Kinsa and Lysol have a very similar mission - *To support families in living a healthier life.* Early detection of illness and disinfection of surrounding surfaces are both critical steps in helping to stop the spread of germs. And that is why Lysol and Kinsa join forces this cold and flu season to help keep families and schools healthy.

Track medications, symptoms, and more

Know how healthy your school is today

See the common symptoms & illnesses

Get specific alerts for each grade

Read comments from your school nurse

## What past FLUency participants are saying

"Parents are loving Kinsa! [They are] taking temperatures and reporting symptoms more, helping to cut the spread of illness in classes."

*Elementary School Principal*

"We love Kinsa in our house! Because I knew that the flu was [going around] thanks to the app, I was able to quarantine myself before passing it on to others in my household. No one else became ill."

*4th grade parent*

"It is great to see the trends going on in each classroom...to know when a room needs a scrub-down or when we should be pushing the Vitamin C!"

*3rd grade teacher*

# Congratulations!

You've been chosen to receive a **FREE** Kinsa Smart Thermometer through the **FLUency™** health program!

**\$19.99 value!**
