

Blanchester School District 2020-2021 Virtual Learning Academy Chromebook Agreement

By signing this document I agree to the following terms and conditions in relation to the Chromebook use and condition for the Blanchester School District Virtual Learning Academy for the 2020 - 2021 School Year.

If the device is damaged please contact your teacher immediately and they will formally submit a ticket to our helpdesk to get the repair process started. The device can then be dropped off at the office of the enrolled school building and the Blanchester Technology Team will pick up the device in order to assess and repair the device in a timely manner.

If the device has been declared to have been damaged, which will be done by one of the Blanchester Technology Team members from Forward Edge, then a formal repair process will be conducted. Any damaged parts up to and including the whole device itself will be replaced and the student who the device is assigned to will be charged for any parts that need to be ordered in order to repair the device. These charges will be assessed by the technology team and given to the principal of the building that the student is enrolled in and then the principal or other building administration will be in charge of enforcing and collecting any charges.

All assigned devices have been checked by the Blanchester Technology Team and noted for condition and any pre existing damages. The assigned student will not be charged for any pre-existing damages or condition.

If the device is damaged by another person other than the student it is assigned to, the assigned student will still be responsible for any damages. This will be managed on a case by case basis and subject to change based on the nature of the incident.

If the device is returned and there is unreported damage found on the device the assigned student will be responsible for any damages and assessed a \$25 late fee in addition to any parts that need to be ordered for a complete repair.
